Moments of Complexity in the Supervisory Process

Verena Kast, Prof. Dr. phil.
Jan Wiener, M.Sc.

Abstract

Moments of Complexity in the Supervisory Process

Jan Wiener and Verena Kast will begin with a dialogue about supervision, focusing on relationship dynamics they have experienced.

Topics such as transference, countertransference, dealing with impasses, difficulties in the supervisory alliance and how to deal with them will be the focus of these two days.

Please bring examples of different problems of relationships you have encountered in your own work as supervisors.

The event is designed for two days, but it is of course possible to participate only one day.

Participation in the Supervision Training Days is possible at the earliest three years after completion of a psychoanalytic/psychotherapeutic training or after recognition as a Specialist in Psychiatry and Psychotherapy.

Please fill out the registration form completely.
